Projects

POP Shop *HTML/CSS, Bootstrap, JS/JQuery, Python/Django, PostgreSQL, relational Database*
https://ecommerce–project.herokuapp.com/
E-commerce site for POP figures

Workout *HTML/CSS, Materializecss, JS/JQuery, Python, MongoDB*
https://workout-app-flask-mongo.herokuapp.com/
This is a CRUD application, showcasing skills I have picked up whilst working with Python. The main point of this project is to showcase my understanding of CRUD operations and knowledge of the Flask framework.

Simon Game *HTML/CSS, JavaScript, Bootstrap, Google Fonts*
https://chrisoc19.github.io/SimonSays/
It's a enterainting and edecational game, with lights and sounds

Deadmau5 *HTML/CSS, JavaScript, JQuery, Bootstrap, Google Fonts*
https://chrisoc19.github.io/bandproject/
This Website was designed for the fans of world famous DJ, Deadmau5.
